³ This production contains a Threshold History Report for McKesson Customers in Ohio. This report contains information about thresholds for opioid products for the time period starting in March 2008 through August 31, 2018. Please note that there are some gaps and data anomalies based on how this tracking tool was set up and how McKesson's records were maintained over time. For certain Customers, the Threshold History Report does not show the initial threshold that was set up for the Customer and product. That does not mean that there was no threshold set by McKesson, but rather reflects a data gap tracing back to when the tracking tool was set up. In addition, McKesson has changed base codes and modified how it defines dosages for certain products over time. The Threshold History Report uses the base code and dosage as entered when the threshold was set, but the McKesson transactional data reports base codes and dosages shipped based on how the product and dosage is currently defined by McKesson. There also may be differences between McKesson's transactional data and ARCOS data. For example, many liquid products are missing dosage units in the ARCOS data, but not in the McKesson transactional data. Finally, there are isolated instances where the data may incorrectly indicate that a shipment exceeded the threshold for a customer and product. McKesson's system is set up to block shipments that exceed a monthly threshold and these isolated instances are likely to be data errors.

Dear Counsel,

On behalf of Defendants Purdue Pharma L.P., Purdue Pharma Inc., and The Purdue Frederick Company Inc. (together, “Purdue”), we are producing a hard drive containing documents that have been subject to meet and confer discussions between the parties.

Purdue’s production of any material subject to any applicable privilege is inadvertent. Please do not hesitate to contact me if you have any questions about this production.

Dear David,

On behalf of Defendants Purdue Pharma L.P., Purdue Pharma Inc., and The Purdue Frederick Company Inc. (together, “Purdue”), we write pursuant to paragraphs 53 et seq. of Case Management Order (“CMO”) 2.

As you may recall, on March 26, 2019, Purdue gave notice of inadvertently produced privileged documents. Counsel for the parties continued to meet and confer about those documents, and Purdue has agreed to amend its list of inadvertently produced privileged documents as a result. The inadvertently produced documents for which Purdue is maintaining privilege in whole or in part (i.e., with redactions) are identified in a revised privilege log that we are producing via email along with this letter. Please note that the privilege log includes a few newly discovery inadvertently produced privileged documents that were the subject of meet and confer discussions.

Purdue requests that Plaintiff comply with CMO 2 by returning or destroying the Privileged Information identified in the enclosed privilege log. Purdue will produce an overlay relating to the revised set of clawed back documents and will produce a revised set of documents now being withheld in part and including redactions.

Dear Counsel,

On behalf of Defendants Purdue Pharma L.P., Purdue Pharma Inc., and The Purdue Frederick Company Inc.
